PALO ALTO, Calif.--(BUSINESS WIRE)--Oct. 12, 1999--  
Internet-based "\*ResourceLink\*" E-service  
to Manage Nonprofit Distribution of Surplus Food and Supplies  
CHICAGO--(BUSINESS WIRE)--Oct. 14, 1999--An industrywide consortium  
led by Hewlett-Packard Company and America's Second \*Harvest\*, the nation's  
largest domestic hunger relief organization, today unveiled \*ResourceLink\*,  
an Internet-based e-service aimed at fighting hunger. \*ResourceLink\* pairs  
food suppliers with surplus food or products with certified charitable  
organizations that can use the goods for their relief or disaster-response  
programs. This Internet e-service is freely accessible to food  
manufacturers and suppliers and transportation companies, as well as to  
America's Second \*Harvest\* food banks and other charities.

\*ResourceLink\* will be officially launched here during the National  
Summit on Community Food Security, a U.S. Department of Agriculture  
(USDA)-hosted conference of national, state and local leaders focused on  
reducing the number of hungry in the United States by 50 percent by 2015.  
Attendees at the conference, which runs today and tomorrow, are expected to  
include notable business, industry, charity, and state and federal  
government leaders.

"According to the U.S. government, 35 million Americans are hungry or  
at risk of not knowing where their next meal is coming from," said Deborah  
Leff, president and chief executive officer of America's Second \*Harvest\*.  
"Although America's Second \*Harvest\* last year fed 21 million Americans  
seeking emergency food assistance, we are simply not meeting the increasing  
need. Technology is essential to our work to feed hungry Americans, and  
innovations like \*ResourceLink\* will dramatically help us get more food,  
more efficiently to where it's needed most."

Hundreds of leading manufacturers, transportation companies, trade  
organizations, retailers and media have already pledged support for  
\*ResourceLink\*. In addition to HP and America's Second \*Harvest\*, primary  
supporters include Cyber Surplus, Grocery Manufacturers of America,  
International Foodservice Manufacturers Association, Nation's Restaurant  
News, National Restaurant Association, National Transportation Exchange,  
U.S. Department of Transportation and U.S. Department of Agriculture. Among  
the first donors committed to using the site include Ateeco, ConAgra,  
General Mills, Kellogg's, Kraft Foods, Mead Johnson Nutritionals, Nabisco,  
Pillsbury and Tyson Foods.

"All too often we are reminded of the bad elements found on the Web.  
\*ResourceLink\* is a great example not only of the power of e-services to  
deliver new value but also of the Net's unique ability to do good in the  
world," said Ann Livermore, president of HP Enterprise Computing.

In addition to providing domain expertise and supply-chain management  
and the next-generation Internet portal, HP has donated HP NetServer  
systems, PCs and printers to power and support \*ResourceLink\* in addition  
to managing the Web site at [www.\\*resourcelink\\*.org](http://www.resourcelink.org).

"\*ResourceLink\* builds on HP's long commitment to community  
involvement and leverages our experience in creating Net-based solutions  
that tie together fragmented elements of the value chain," said Livermore.  
"Today we are creating a uniquely focused virtual trading community through  
which companies, government and nonprofits can connect to address a serious  
societal issue."

#### E-services Reduce Waste

\*ResourceLink\*'s "match and alert" e-service instantly links donor  
companies with the needs of specific charities and identifies  
transportation companies that can provide no-cost or low-cost shipping. The  
process, which previously took days or weeks, is completely automated over  
the Internet and requires only hours or minutes with HP's e-services model.

While initially focused on surplus-food distribution, \*ResourceLink\*

BEST AVAILABLE COPY

capabilities will soon expand to identify surplus clothing and building materials for distribution through certified charities.

About America's Second \*Harvest\*

America's Second \*Harvest\* is the largest charitable hunger relief organization in the United States. America's Second \*Harvest\* network of 189 regional food banks serves all 50 states and Puerto Rico, and distributes more than 1 billion pounds of donated food and grocery product annually.

America's Second \*Harvest\* network supports approximately 50,000 local charitable agencies that operate more than 94,000 food programs, including food pantries, soup kitchens, women's shelters, Kids Cafes and other local organizations that provide food assistance to more than 26 million hungry Americans, including 8 million children and 4 million seniors each year.

About HP

Hewlett-Packard Company -- a leading global provider of computing and imaging solutions and services for business and home -- is focused on capitalizing on the opportunities of the Internet and the proliferation of electronic services.

HP plans to launch Agilent Technologies as an independent company by mid-calendar 2000. Agilent consists of HP's test and measurement, semiconductor products, chemical analysis and healthcare solutions businesses, and has leading positions in multiple market segments.

HP has 123,500 employees worldwide and had total revenue of \$47.1 billion in its 1998 fiscal year. Information about HP, its products and the company's Year 2000 program can be found on the World Wide Web at <http://www.hp.com>.
